SUPPLEMENT TO
REPORT NO.

One Eugene W. Ill of 11 place du Molard, Geneva, was reported early in March 1951 to be interested in having two consignments of electrolytic copper shipped to Trieste. One consignment, weighing 3,000 metric tons, would be shipped from Bilbao; the other consignment, weighing 2,100 tons, would originate in Turkey. Ill did not specify the ultimate destination of the copper, but it is presumed that it would be transhipped to Eastern Europe.
